

WB-01-Standard Water Barrier

WB-01-Y

Features:

Made from 100% recyclable LLDPE • Tessellates when packed to optimise transport capacity • Manufactured from high visibility canary yellow materials • When filled can accommodate 140 litres of water • Links up easily with other barriers to create an effective barricade for road works and other construction activities • Large internal holes minimise the barrier's wind resistance and increase stability • Highly UV and temperature resistant • 12,5 kg moulded weight lends implicit quality and stability to this product • Available in yellow, red and white as standard • Other colour available on request
